20 claimants are individually identified in the following narrative addressing
21 disposition of the requested modifications, except individual claimants are
22 not identified for the annual quantity calculation. Ecology's list of
23 affected claimants includes only those where 1 acre-foot or more per year
24 difference was involved, but requests recalculation for all claimants.

27 SECOND SUPPLEMENTAL REPORT OF REFEREE
28 Re: Subbasin No. 11 (MANASTASH)

1 At the September 10, 1998, hearing, the Court ruled orally on several
2 exceptions, deferred for a later written decision several exceptions and
3 remanded three claims to the Referee, with instructions, for further

6
7 I. ORAL RULINGS OF THE COURT

8 The following exceptions were granted by the Court at the exception
9 hearing on September 10, 1998:

- 10 1. Estate of Ramon and Marion Nielson, Court Claim No. 01449 --
11 the legal description of the land on which water is used was
clarified and a right will be confirmed as described in the
Supplemental Report of Referee.
- 12 2. Anderville Farms, Court Claim No. 01950 -- the claimant
13 should file an application to change the point of diversion
14 for the right as required by RCW 90.03.380 and Ecology shall
approve the change.
- 15 3. Charles and Margaret Steward, Court Claim No. 01968 -- on
16 Page 163, Line 12½ of the Supplemental Report of Referee,
language will be added to the confirmed right to show that
17 Kittitas Reclamation District (KRD) water is also used on the
land.
- 18 4. Dave Duncan and Sons, Ltd. and Duncan Family Trust, Court
19 Claim No. 00931/(A)01750 -- on Page 53, Line 18½ of the
Supplemental Report of Referee, change range number from
"18" to "17."
- 20 5. Larry and Harriet L. Bland and Bart G. and Carrie Bland,

- 37 1. Brian and Carol Møllergaard, Court Claim No. 00826
38 -- WSIC -- On Page 152, Lines 12 $\frac{1}{2}$ and 25 and

SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

1 The following exceptions were denied by the Court at the exception
2 hearing:

- 3 1. Charles and Karin McElevey, Court Claim No. 01951; Melissa L.
4 Montana, Court Claim No. 01948; Melvin and Jodee Shenyer,
5 Court Claim No. 02270 and Lynn and Corky Weissenfels, Court
6 Claim No. 01821 -- the Court ruled that filing a claim with
7 the Court to become a party to the adjudication does not
8 substantially comply with the requirements of Ch. 90.14 RCW.
9 This was set forth in a Memorandum Opinion Re: RCW 90.14 and
10 Substantial Compliance, February 10, 1995.
- 11 2. Ecology's exception concerning the quantity of water awarded
12 to Packwood Canal Company, Court Claim No. 00785 was denied
13 as there was evidence to support the quantity of water that
14 was awarded.
- 15 3. Ed Sullivan's exception to numerous claims in Subbasin No. 11
16 -- Mr. Sullivan's exception dealt primarily with two issues.
17 The first was water rights being confirmed for lands not
18 described in the Gray and Geddis v. Johnson decree. The
19 Court found that when that had occurred, there was evidence
20 of the right having been legally transferred and this
21 exception was denied. The following claims were identified
22 by Ed Sullivan regarding the place of use recommendations:
23 Richard T. & Lynn Cole, Court Claim No. 01969; George and
24 Barbara Helleson, Court Claim No. 01949; John Richard
25 Matthews, Court Claim No. 02283; Woodly & Deloris Moore,
26 Court Claim No. 00770; Brent D. & Karen A. Renfrow, Court
27 Claim No. 04816; Mitchell F. and Julie A. Williams, Court
28 Claim No. 01553.

The second exception related to the commingling of Manastash
Creek water and KRD water without measurement at the takeout
point and the point of diversion for the Keach Ditch and
Jensen Ditch. The Court heard argument on this exception and
ultimately denied the exception as being related to
management of the resource rather than determination and
quantification of the water rights. The following claims
were identified by Ed Sullivan regarding conveyance
channels: Bart G. & Carrie Bland, Court Claim
No. 00931/(A)01750; Larry and Harriett L. Bland, Court Claim
No. 01723; George and Barbara Helleson, Court Claim
No. 01949; Laurin C. and Marjorie Møllergaard, Court Claim
No. 00982; Harold Orr, Court Claim No. 01953; K. Bruce and
Jean G. Skibeness (Also Bart G. & Carrie Bland), Court Claim
No. 01896; Charles and Margaret Steward, Court Claim
No. 01968; Ewing Stringfellow, Court Claim No. 01967.

SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

- 1 4. Ecology's request for clarification concerning annual
2 quantities awarded to various claimants in the subbasin --
3 when computing the annual quantity, the Referee had rounded
4 the quantities upward so that slightly more water was
5 authorized for use than could be diverted during the
6 authorized irrigation season. The Court denied this
7 exception, finding that every effort will be made to be as
8 accurate and precise as possible, but that the
9 inconsistencies identified do not warrant going back and
10 rewriting the report.

II. SUBSEQUENT RULINGS OF THE COURT

Subsequent to the exception hearing, the following rulings were made:

1. Manastash Water Ditch Association's exceptions to Pacific Northwest Conference of the United Methodist Church (Lazy F Camp), Court Claim No. 00659 -- the exceptions were denied by the Court in its Ruling Re: Manastash Water Ditch Association's Exception to Lazy F Camp's Recommended Water Right, Subbasin 11 (Manastash), filed on December 2, 1999.
2. Garry and Dawn Mathews, Court Claim No. 00516 -- the exception was granted in the Court's Ruling Re: Exception to Supplemental Report -- Garry Mathews, Claim No. 00516, January 20, 2000. A right will be confirmed with a February 22, 1889, date of priority for the diversion of 0.012 cfs; 2.5 acre-feet per year from Manastash Creek for the irrigation of one-half acre.
3. Richard T. and Lynn Cole, Court Claim No. 01969 -- the exception as to the priority date was denied in the Court's Opinion and Ruling Re: Exception of Richard and Lynn Cole, Claim No. 01969 to Supplemental Report of the Referee, Subbasin No. 11 (Manastash), filed on March 27, 2000.
4. Warren Baylinson (formerly Lawrence E. and Sula F. Spannagel), Court Claim No. 01770 -- the exception of Ecology was granted in the Court's Ruling Re: Exception to Supplemental Report -- Subbasin No. 11, filed on September 20, 2000. There is no Ch. 90.14 RCW surface water right claim; therefore, any right to surface water which may have been perfected has been relinquished as noted in the original Report of Referee. The water right as described on Page 181 of the Supplemental Report of Referee is null and void.

- 1 5. Dale Dyk, Court Claim No. 00931/(A)01750; Dave Duncan & Sons,
2 Ltd. & Duncan Family Trust, Court Claim Nos. 00931/(A)01750;
3 Bart G. and Carrie Bland, Court Claim No. 00931/(A)01750;
4 Bart G. and Carrie Bland, Larry and Harriett Bland, Court
5 Claim No. 01723/(A)04410 and Charles and Margaret Steward,
6 Court Claim No. 01968 -- these exceptions challenged the
7 constitutionality of RCW 90.14.068(5) that limited the filing
8 of Ch. 90.14 RCW claims by excluding areas being
9 adjudicated. The Court denied these exceptions pursuant to
10 its Memorandum Opinion and Ruling Re: R.C.W. 90.14.068(5)
11 Constitutional Issue filed November 8, 1999, see Order
12 Applying November 8, 1999, Ruling Re: RCW 90.14.068
13 Constitutionality to Exceptions to Supplemental Report of
14 Referee, Subbasin 11 (Manastash).
- 15 6. Bart G. and Carrie Bland (Also K. Bruce and Jean G.
16 Skibenness), Court Claim No. 01896 -- the Ecology exception
17 regarding the instantaneous quantity was denied in the
18 Court's Ruling Re: Exception to Supplemental Report, Subbasin
19 No. 11, filed on September 20, 2000. This particular
20 property was awarded 1.25 inches per acre in Gray and Geddis,
21 supra.

22 III. CLAIMS REMANDED

23 The following claims were remanded to the Referee to take
24 testimony:

- 25 1. Clarence Harrell, Court Claim Nos. 00477/(A)04637.
26 2. Brian H. Cooke, Court Claim No. 01846.
27 3. James A. Craddock and Donald Wrigley, Court Claim
28 No. 01553.

SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

V. SECOND SUPPLEMENTAL HEARING

The Referee's second supplemental hearing for Subbasin No. 11 was held on April 19, 2000. The following is consideration of the testimony and evidence presented at that hearing:

COURT CLAIM NO. 01846 -- Brian H. Cooke
& Tamara M. Cooke

Court Claim No. 01846 was filed August 31, 1981, by Brian H. and Tamara M. Cooke. The Report of Referee for Subbasin No. 11 (Manastash) dated May 9, 1994, recommends confirmation of a June 30, 1874, water right for irrigation of 4.5 acres and stock water from Manastash Creek. The Cookes took no exception to that recommendation. The Supplemental Report of Referee for Subbasin No. 11 (Manastash) dated April 17, 1998, does not contain any discussion of Court Claim No. 01846, but merely carries forward the 1874 Manastash Creek water right previously recommended and corrects the quantities as directed by the Court in Order on Exceptions; Subbasin No. 11 (Manastash), February 9, 1995. On July 27, 1998, subsequent to the deadline established for filing exceptions (June 12, 1998), Brian Cooke contacted the Referee's office by telephone regarding riparian stock water which was not recommended for his property. He was advised to send to the Court an exception concerning stock water rights not being awarded for his property. During the exception hearing held on September 10, 1998, the Court remanded the exception on Court Claim No. 01846 for the Referee's second supplemental evidentiary hearing scheduled for April 19, 2000.

The first exception by Mr. Cooke was omission of Brian H. and Tamara M. Cooke from the list of claimants with recommended non-diversionary stock

SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

1 water rights. The Report of Referee, Vol. 17 (Manastash), on Page 71
2 recognized that grazing livestock on the Cooke property have direct access
3 to Manastash Creek and springs; therefore, the stipulation does apply.
4 Their names are therefore added to the list of claimants who enjoy riparian
5 stock water rights.

6 The second exception relates to the Cookes' claim to a water right
7 for springs arising on land west of their property. They assert
8 diversionary water rights for stock water and irrigation of 4 to 5 acres
9 from springs lying south of and near Manastash Creek just upstream from the
10 concrete diversion dam for the Anderson Ditch within the SW¹/₄NE¹/₄ of
11 Section 7, T. 17 N., R. 18 E.W.M. The Referee understands the record to
12 describe spring water that naturally flows into Manastash Creek immediately
13 above the irrigation diversion (Anderson Ditch) which delivers Manastash and
14 Kittitas Reclamation District (KRD) water to the Cooke property. This water
15 is especially critical to the Cooke property during periods when senior
16 upstream users are exercising their rights to Manastash Creek. During those
17 times, some flow from the springs is available via Manastash Creek and
18 Anderson Ditch for stock water. During more favorable flow conditions, the
19 springs contribute larger volumes of water to Manastash Creek and thus the
20 subject ditch.

21 Ch. 90.14 RCW Water Right Claim (WRC) No. 120826 filed by Jerome K.
22 Miller is asserted to be the foundation for the water right on the subject
23 springs. Mr. Miller is said to be a prior owner of portions of Sections 7
24 and 8 and, in fact, of the Cooke property. WRC No. 120826 was filed on a
25 short form which, according to RCW 90.14.051, limits the claim to no more
26

27 SECOND SUPPLEMENTAL REPORT OF REFEREE
28 Re: Subbasin No. 11 (MANASTASH)

1 than 5000 gallons per day for stock water and up to one-half acre of lawn
2 and garden irrigation. The claim describes the place of use for the spring
3 water as being within the NW~~1~~⁴ of Section 8, T. 17 N., R. 18 E.W.M., a
4 40-acre tract within which the Cooke property lies. The spring location
5 described in WRC No. 120826 is in the NE~~1~~⁴ of Section 7, T. 17 N.,
6 R. 18 E.W.M, which would place the spring one-half mile north and east from
7 the springs Mr. Cooke describes. The spring identified in WRC No. 120826 is
8 well north of Manastash Creek and downstream from the diversion dam for
9 Anderson Ditch. The Referee concludes that WRC No. 120826 does not apply to
10 the springs described by Brian Cooke, which appear to be located in the
11 SW~~1~~⁴ of Section 7, T. 17 N., R. 18 E.W.M. There is no evidence that any
12 other claim for use of a spring was filed for the Cooke property. Any water
13 right which may have been perfected from these springs has been waived and
14 relinquished as set forth in RCW 90.14.071 for failure to file a claim. A
15 diversionary water right for the springs cannot be recommended under Court
16 Claim No. 01846. The Report of Referee should be affirmed except for
17 inclusion of the claimants' names on the non-diversionary stock water list
18 on Page 137 of the Supplemental Report of Referee.

19 The Referee suggests to the claimants that the spring outflow as
20 described is tributary to the channel of Manastash Creek at or above the
21 diversion dam which delivers claimants' June 30, 1874, water right for stock
22 water and irrigation of 4½ acres. With those facts, the water they can
23 divert from Manastash Creek would include the spring flow contribution to
24 the creek.

27 SECOND SUPPLEMENTAL REPORT OF REFEREE
28 Re: Subbasin No. 11 (MANASTASH)

1 COURT CLAIM NO. 00477 -- Clarence Harrell
04637 & Hazel J. Harrell

2 On June 15, 1998, Lawrence E. Martin, attorney representing Clarence
3 and Hazel Harrell, filed with the Court two exceptions to the Supplemental
4 Report of the Referee, Subbasin No. 11 (Manastash Creek), Volume 17A dated
5 April 17, 1998.

6 The first matter to be addressed is the Referee's recommendation to
7 confirm a 120-acre place of use (the W $\frac{1}{2}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5,
8 T. 17 N., R. 18 E.W.M.) for the 140 miner's inch Class 1 water right, with a
9 June 30, 1871, priority. The Harrells contend that the Referee must have
10 relied upon the Schedule of Water Rights (DE-272) for the legal description
11 of the Olaf Hansen property (formerly S. R. Geddis), which includes a
12 portion of the land confirmed a right in the Decree. The Referee concurs
13 with claimants' suggestion that Court Decree 99 and 100 filed March 17,
14 1891, at Decision 23 describes the S. R. Geddis property to include
15 160 acres, namely the W $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, T. 17 N.,
16 R. 18 E.W.M. In this instance, the Court's Decision clearly dictates the
17 place of use description over the Schedule of Rights which was produced by
18 person or persons unknown at some unspecified date subsequent to entry of
19 the Gray Decree, No. 99 and 100. The Referee's discussion on Page 57,
20 Lines 11 through 25 is hereby modified to remove the excess water duty
21 discussion and to correct the place of use description to reflect the full
22 160-acre area described above and in Paragraph 23 of the Decision of the
23 Court in Gray, supra. The June 30, 1871, water right is thus for 140 inches
24 (3.26 cfs) Manastash Creek water used to irrigate 140 acres within the
25

26 SECOND SUPPLEMENTAL REPORT OF REFEREE
27 Re: Subbasin No. 11 (MANASTASH)

1 W $\frac{1}{2}$ SW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, T. 17 N., R. 18 E.W.M. Changes are
2 also to be made on Page 141, Lines 16 $\frac{1}{2}$ and 23 $\frac{1}{2}$ to reflect irrigation of
3 140 acres and the legal description amended to include the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of
4 Section 5, T. 17 N., R. 18 E.W.M. Although the Harrells request revision of
5 the instantaneous and annual quantities to reflect 3.80 cfs from April 1
6 through June 30, 1.90 cfs after July 1; 1281.7 acre-feet per year, the
7 Referee declines to recommend any change to those quantities as no basis has
8 been established for those increased quantities.

9 The second exception filed by the Harrells seeks revision of the
10 acres irrigated and the quantities of water authorized from Manastash Creek
11 for that portion of the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5, T. 17 N., R. 18 E.W.M. lying
12 north of Hanson Road (Supplemental Report of Referee, Page 150, June 30,
13 1872, right). The Referee had relied on maps which are in the record and
14 acknowledges that more definitive information has been provided by way of
15 Exhibit DE-273 (deeds). The Harrells purchased the Fred Hanson property
16 April 21, 1941, which included the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5,
17 T. 17 N., R. 18 E.W.M. On May 27, 1941 (approximately a month following the
18 Harrell purchase), 13 $\frac{1}{2}$ inches of second class water (1872) was transferred
19 by Quit Claim Deed to Fred Hanson from D. B. Alloway. The 13 $\frac{1}{2}$ -inch water
20 right (0.315 cfs) was described as a portion of the right confirmed to
21 Edward Russell via Gray, supra and, consistent with the Gray Decree, would
22 have been used to irrigate 13.5 acres.

23 During review of this portion of the Harrell's water right record on
24 Page 150, Line 6 of the Supplemental Report of Referee, the Referee
25 discovered that the instantaneous quantity entry did not include the 50%

26
27 SECOND SUPPLEMENTAL REPORT OF REFEREE
28 Re: Subbasin No. 11 (MANASTASH)

1
2 reduction effective on July 1 of each year. In the Supplemental Report of
3 Referee on Page 60, Lines 15½ through 16½, the appropriate quantities and
4 periods of use are set forth. The correction is reflected in the language
5 presented below and on Page 43 of this Second Supplemental Report of Referee.

6 The Referee recommends the following changes to the June 30, 1872,
7 right described on Page 150 of the Supplemental Report of Referee, Subbasin
8 No. 11 (Manastash); Use: Irrigation of 13½ acres; Quantity and Period of
9 Use: 0.315 cfs April 1 through June 30, 0.157 cfs March 1 through March 31
10 and July 1 through October 31; 105.8 acre-feet per year.

11 During review of the legal descriptions, the Referee noted that the
12 SW¼SE¼ of Section 32, T. 18 N., R. 18 E.W.M. was included in the place of
13 use for the June 30, 1872, water rights on both Page 149 and Page 150 of the
14 Supplemental Report of Referee. That duplication is therefore eliminated by
15 substituting on Page 149, Line 23½: "SE¼SE¼" for "S¼SE¼" before
16 "Section 32, T. 18 N., R. 18 E.W.M."

17 A revision is also necessary on Page 59, Lines 8½ through 13½ where
18 the former S. R. Geddis ownership is presented. The appropriate changes are
19 to describe only the "SE¼SE¼ in Section 32, T. 18 N., R. 18 E.W.M." instead
20 of the entire "S¼SE¼" of said section. The other change is to the gross
21 acres involved which should be "200" acres as opposed to the "240" acres as
22 reflected on Line 13½.

1
2 COURT CLAIM NO. 02270 -- Robert Dean

3 During review of the exceptions to the Second Supplemental Report of
4 Referee, Subbasin No. 11 (Manastash), a discrepancy in priority date on
5 Page 198 for Court Claim No. 02270, Robert Dean, was discovered.

6 After reviewing relevant documents, it was determined that "June 30,
7 1877" rather than "June 30, 1894" is the correct priority date. The
8 recommended water right located on Page 53 of this report will reflect that
9 date.

10 COURT CLAIM NO. 01553 -- Mitchell F. Williams
11 & Julie A. Williams
12 James A. Craddock
13 & Dale D. Craddock
Donald J. Wrigley

14 Court Claim No. 01553 was filed by Freta L. Olds on August 28, 1981.
15 During late 1981, Deva Martensen, Freta Olds' daughter, was substituted as
16 claimant. On March 19, 1996, Mitchell F. and Julie A. Williams acquired
17 major portions of the former Freta Olds ranch and were substituted for Deva
18 Martensen for all of Court Claim No. 01553.

19 During Deva Martensen's ownership of the property, the evidentiary
20 hearing was held for Subbasin No. 11 (Manastash), between November 2, 1989,
21 and November 21, 1989. Attorney Kenneth D. Beckley represented Deva
22 Martensen at the hearing. The Referee recommended confirmation of a right
23 to use 0.8875 cfs April 1 to June 30 and 0.444 cfs from July 1 to October 31
24 for the irrigation of 35.5 acres. This recommendation represented a
25 proportionate share of a Class 1 (June 30, 1871, priority date) water right
26 which was for 50 miner's inches appurtenant to the former Freta Olds ranch.

27 SECOND SUPPLEMENTAL REPORT OF REFEREE
28 Re: Subbasin No. 11 (MANASTASH)

Referee's Office
15 W. Yakima Ave Ste. 200
Yakima, WA 98902-3401

1
2 No claimants came forward during the original evidentiary hearing asserting
3 ownership of the balance of this water right. No exception was filed by
4 Deva Martensen (or anyone else) regarding Court Claim No. 01553. Therefore,
5 the only reference to the claim in the Supplemental Report of Referee is a
6 listing on Page 147 of the recommended water right which reflects the
7 corrected instantaneous quantities as directed by the Court for all
8 claimants confirmed rights from Gray, supra (see Order on Exceptions;
9 Subbasin No. 11 (Manastash), February 9, 1995).

10 On July 17, 1998, James A. and Dale D. Craddock were joined to Court
11 Claim No. 01553. On July 20, 1998, Donald J. Wrigley was also joined to
12 Court Claim No. 01553. Court Claim No. 01553 was remanded to the Referee to
13 allow the Craddocks and Wrigley to present evidence in support of their
14 water rights at the Referee's second supplemental hearing. Attorney
15 James E. Davis represented Donald J. Wrigley and James A. Craddock and
16 Dale D. Craddock at the evidentiary hearing on April 19, 2000. James A.
17 Craddock and Daniel Chouinard (a business partner of Donald J. Wrigley)
18 testified. The Craddocks and Wrigley own portions of the former Freta
19 Olds ranch which were historically irrigated with a portion of the Class 1,
20 1871 priority water rights from Manastash Creek delivered via Keach and
21 Jensen Ditches. Ch. 90.14 RCW WRC No. 154349 filed by Freta Olds includes
22 the land now owned by Wrigley and the Craddocks.

23 The intent of both Wrigley and the Craddocks is to be confirmed
24 proportionate shares of the 50-inch 1871 water right of which Mitchell F.
25 and Julie A. Williams have been confirmed a right for irrigation of
26 35.5 acres. Claimants Craddocks and Wrigley have proportionate interest in

28 SECOND SUPPLEMENTAL REPORT OF REFEREE
Re: Subbasin No. 11 (MANASTASH)

1
2 the remaining 14.5 inches of this water right to which no claim has
3 previously been asserted. The water duty as applied to the Williamses
4 portion of the Class 1 water right is consistent with the Craddocks' and
5 Wrigley's belief as to historic water use on their respective properties and
6 will be applied as appropriate in any recommendation.

7 James A. Craddock and Dale D. Craddock own a total of 13.9 acres
8 which they bought in 1988. The area which is currently irrigated and has
9 been irrigated since the late 1800s includes 4 acres which are irrigated
10 with water diverted from Manastash Creek through Jensen Ditch. Three acres
11 are in pasture with the remaining acre being the Craddock lawn and garden
12 and a small orchard. A 2 hp electric pump is located on the ditch as it
13 flows through the Craddock property. Although Mr. Craddock estimated that
14 his pump delivers about 50 gpm through the 7 sprinklers typically operated,
15 the quantity of water used throughout Gray, supra is 1 inch or 0.0233 cfs
16 per acre for a total of 0.093 cfs (42 gpm) for the 4 acres Craddock
17 irrigates. At that instantaneous quantity, a maximum of 7.0 acre-feet per
18 acre or 28.0 acre-feet per year for 4 acres can be diverted. Stock grazed
19 on the 3-acre pasture area have access to the channel of Jensen Ditch and to
20 Manastash Creek. The Stock Water Stipulation discussed on Page 3 of the
21 Report of Referee, Volume 17 is applicable to the Craddock property and
22 stock water is included as a use for the diversionary Manastash Creek water
23 right. James A. Craddock and Dale D. Craddock have been added to the list
24 of claimants with a non-diversionary stock water right. The 4 acres within
25 the Craddock parcel which are irrigated lie south of Manastash Creek and
26 north of the county road being described as the east 230 feet of the west

1
2 800 feet of the NW~~1~~⁴NE~~1~~⁴ of Section 14, T. 17 N., R. 17 E.W.M. The common
3 point of diversion for Jensen and Keach Ditches is located 550 feet south
4 and 650 feet east from the north quarter corner of Section 14, being within
5 the NW~~1~~⁴NE~~1~~⁴ of Section 14, T. 17 N., R. 17 E.W.M.

6 The Wrigley property is irrigated via two pumps--a 2 hp pump
7 installed on Keach Ditch and a 3 hp pump on Jensen Ditch. Six acres are
8 irrigated from Jensen Ditch and 2 acres from Keach Ditch. This land was
9 historically irrigated by flood irrigation beginning in the late 1800s. The
10 same history of use, Ch. 90.14 RCW claim and water duty discussed for the
11 Craddock property is applicable to the Wrigley parcel.

12 Based on beneficial use beginning in the late 1800s and continued
13 beneficial use on the 8 acres owned by Wrigley, the Referee recommends a
14 water right as follows: a point of diversion common with the Craddocks with
15 irrigated acreage described as follows: that portion of the NE~~1~~⁴NE~~1~~⁴ of
16 Section 14 lying south and west of the Kittitas Reclamation District Canal
17 and north of the county road and that part of the NW~~1~~⁴NE~~1~~⁴ lying south of
18 Manastash Creek and north of the county road, EXCEPT the west 1000 feet
19 thereof, within Section 14, T. 17 N., R. 17 E.W.M. Wrigley's share of the
20 50-inch 1871 water right will be 0.186 cfs from April 1 through June 30,
21 0.093 cfs from July 1 through October 31; 56.0 acre-feet per year for the
22 irrigation of 8 acres. The stock grazing on this land have access to the
23 ditches and to Manastash Creek. Stock water is included as a use incidental
24 to diversion of water through Keach and Jensen Ditches for the Wrigley
25 property. The Stock Water Stipulation as discussed above for the Craddock
26 property is also applicable to the Wrigley property; therefore, Donald J.

1
2 Wrigley's name is added to the list of claimants on the non-diversionary
3 stock water list.
